

Sand Art

From: Mister Chuck's Workshop, Episode 108, Trip to the Seashore

You Will Need...

construction paper,
poster board,
or cardboard

Container of Sand

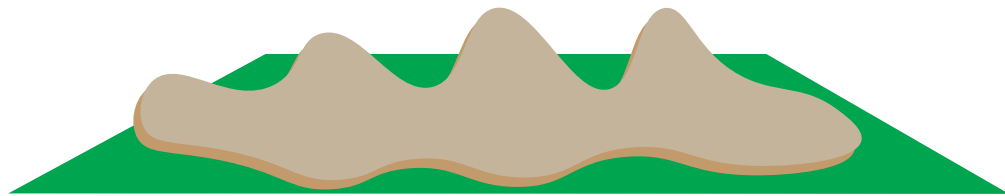

1.

Take your construction paper, poster board, or cardboard and draw a picture with school glue.

2.

Once your picture is finished, carefully pour sand on the picture, covering the surface entirely.

Sand Art

3.

When the surface is entirely covered with sand, carefully lift the picture allowing the sand to pour on the work area. The sand that is stuck to the glue should remain on the picture. All remaining sand should fall away.

4.

Let your picture dry flat. While you are waiting for the glue to dry, clean up the remaining sand.
