You Will Need...

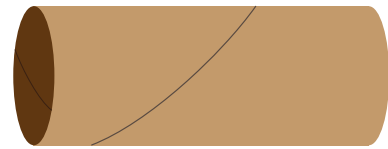

Paper Plate

Ribbon

Scissors

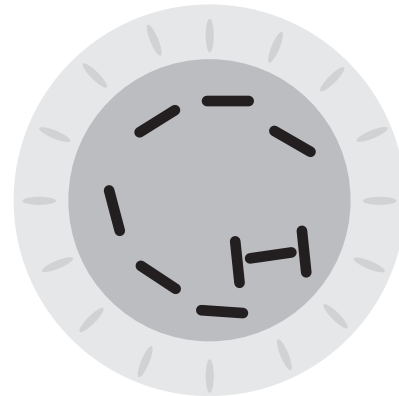

Toilet Paper Tube

1.

Start by placing the toilet tissue tube under the paper plate and making slits, with scissors, in the middle of the paper plate.

REMEMBER! *Any time a child uses scissors, there must be an adult present.* (You can make random slits or create a design).

2.

Take the opposite end of the pipe cleaner and thread it through the drinking straw. Once it is threaded through, clamp off that opposite end.

3.

Finally, enjoy threading the ribbon through the slits. Once you have threaded the ribbon through, unthread the ribbon and start again.
